

Mounting and Band

*PAB Band

Band is designed for mounting SD-20 & SD-21 series sensors on 12 ~125 round(tie-rod) cylinder.

PAB-01 : Short band , is designed 12 ~ 63 round(tie-rod)cylinder.

PAB-02 : Long band , is designed 12 ~125 round(tie-rod)cylinder.

*PBO Band

Band is designed for mounting SD-30,31,33 series sensors on 10 ~125 round(tie-rod) cylinder.

PBO-01 : Short band , is designed 10 ~ 63 round(tie-rod)cylinder.

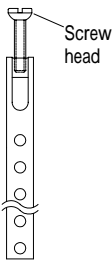

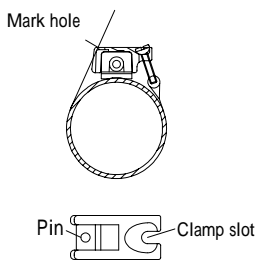

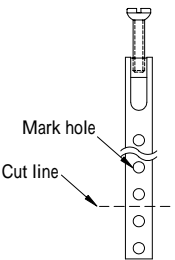

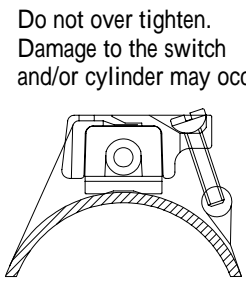

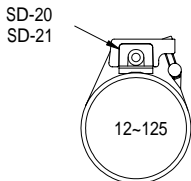

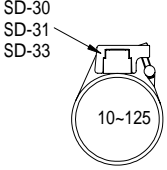

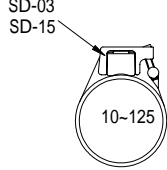

PBO-02 : Long band , is designed 10 ~125 round(tie-rod)cylinder.

*PBT Band

Band is designed for mounting SD-03 & SD-15 series sensors on 10 ~125 round(tie-rod) cylinder.

PBT-01 : Short band , is designed 10 ~ 63 round(tie-rod)cylinder.

PBT-02 : Long band , is designed 10 ~125 round(tie-rod)cylinder.

Step 1	Step 2	Step 3	Step 4
Start by keeping screw 3 to 4 turns into barrel nut on the end of the band assembly.	Place the screw head into clamp slot and wrap the band around the cylinder,Position the pin with the nearest hole on the band and mark the hole with a permanent marker.	Remove clamp assembly from the cylinder. Locate the marked hole that fits to the cylinder size , cut the band at midway between the next two adjacent hole.	Insert cut of the band into a flat slot opposite from the clamp slot.Place the chosen hole over the pin and bend the band firmly down with thumb pressure. Then wrap the band around cylinder barrel and re-insert screw head into clamp.Position the switch and tighten.
			
	 *PAB Band	 *PBO Band	 *PBT Band
			

Mounting and Clamp

*PN Clamp

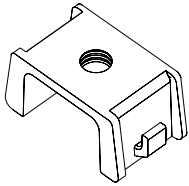

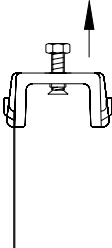

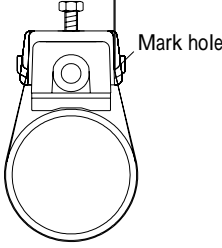

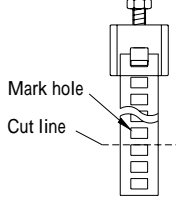

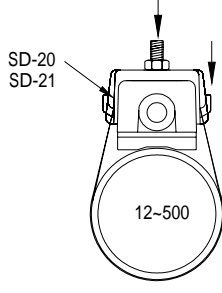

Clamp is designed for mounting SD-20 & SD-21 series sensors on 12 ~ 500 round cylinder.

PN-01 : Short clamp , is designed 12 ~ 40 round cylinder.

PN-02 : Short clamp , is designed 12 ~ 63 round cylinder.

PN-03 : Long clamp , is designed 12 ~ 125 round cylinder.

PN-04 : Long clamp , is designed 12 ~ 500 round cylinder.

	Step 1	Step 2	Step 3	Step 4
	Losen screw & nut.	Place sensor & wrap the band around the cylinder, Position the hook with the nearest hole on the band and mark the hole with a permanent marker.	Remove mounting assembly. Cut the band at the nearest edge of next hole.	Re-place the sensor & mounting assembly. Wrap the band & put the chosen hole on hook. Position the switch and tighten. Fully swivel nut for steadying.
				 Do not over tighten. Damage to the switch and/or cylinder may occur.

*PBK Clamp

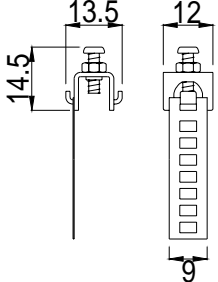

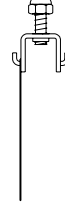

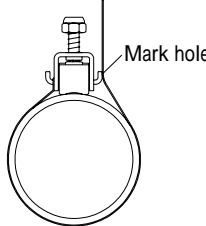

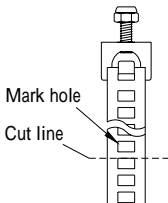

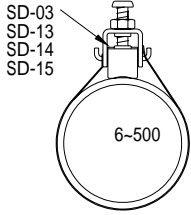

Clamp is designed for mounting SD-03,13,14,15 series sensors on 6 ~ 500 round cylinder.

PBK-01 : Short clamp , is designed 6 ~ 40 round cylinder.

PBK-02 : Short clamp , is designed 6 ~ 63 round cylinder.

PBK-03 : Long clamp , is designed 6 ~ 125 round cylinder.

PBK-04 : Long clamp , is designed 6 ~ 500 round cylinder.

	Step 1	Step 2	Step 3	Step 4
	Losen screw & nut.	Place sensor & wrap the band around the cylinder, Position the hook with the nearest hole on the band and mark the hole with a permanent marker.	Remove mounting assembly. Cut the band at the nearest edge of next hole.	Re-place the sensor & mounting assembly. Wrap the band & put the chosen hole on hook. Position the switch and tighten. Fully swivel nut for steadying.
				 Do not over tighten. Damage to the switch and/or cylinder may occur.
